

On November 1st, 2017. Mr. Daniel Martin has assumed operational responsibility as our new CEO of the Swiss Tool Group.

## Daniel Martin is the new CEO of the Swiss Tool Group

Mr. Daniel Martin will take over the function as CEO. Previously held by Dr. Michael Beck who led the company for the past 16 years. Dr. Beck is dedicated and has an untiring commitment and significantly shaped the development of the Swiss Tool Group and will continue to remain committed to the company in the future. He joined the Board of Directors as of November 1st, 2017.

Mr. Daniel Martin on his new task:

"From Dr. Michael Beck, I take over an excellently managed and very well positioned company. I am looking forward to working with my team on the challenges to continue the successful history of the Swiss Tool Group."

As a mechanical engineer with further education in business management and international management experience in the Swiss industrial companies Angst + Pfister AG, Swisslog AG and Sika Automotive AG, Mr. Daniel Martin has all the prerequisites to lead the Swiss Tool Group into a continued successful future.

The Swiss Tool Group is one of the leading manufacturers of modular tool systems and consists of the companies Bär and Mettler AG, MBM AG and Swiss Tool Systems AG.
